Quality Control

Maven Fashion Ltd. (MFL) believes that, in the world apparel market, quality counts. So, it has established a highly qualified and efficient Quality Control (QC) Department. As its quality policy, MFL focuses on providing products at price and service advantages of its clients ensuring height of quality through direct response mechanism.

In order to sustain the command in the key technological areas concerning the garments industry, MFL has made significant investments in acquiring world-best testing and quality assurance equipment and technologies.

The QC team of MFL follows some international standards such as 4-point Fabric Inspection System; Traffic Light System; AQL 2.5; Needle Detection Report; 9-point Quality Check System and many more. As well, it always takes the advantages of GSM Check Reports and Light Box System Reports etc.

The processes that the QC system here customarily undergoes are:

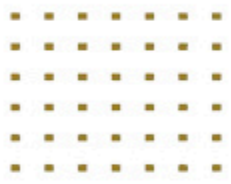

However, having a GPQ (Guideline for Production and Quality) team to oversee the work processes in the QC system, MFL is always ahead in maintaining the best quality for its buyers around the world.

Marketing & Merchandising

Our Merchandising department is the star of the department among all the working departments in the Export concern, because Merchandising is the only department having maximum control over the departments and total responsible for Profit and loss of the company. Maven Fashion Ltd. have strong merchandising dept; the merchandising team who are always concern about the main objectives of their job description that is 4R

Right Quantity
Right Quality
Right Cost
Right Time

To dispatch right quantity of product what buyer ordered
It should be with right quality as accepted both parties.
Everybody wants more from what they are paid.
No one wants to wait idle even in a Restaurant. Keeping delivery schedule is mandatory
